Rev 3/23

*The following terms apply to interest earning savings and money market accounts. Interest will compound and pay to your savings account quarterly. Interest will compound and pay to your money market account monthly. We use the daily balance method to calculate interest on your account. This method applies a daily periodic rate to the available balance in the account each day. Interest begins to accrue no later than the business day the bank receives credit for the deposit of non-cash items (for example, checks). At our discretion, the interest rate and annual percentage yield may change. Fees may reduce yields. If you close an interest earning account before interest is credited, interest will be forfeited. Please refer to bank interest rate sheet or website for current interest rates. Checking, money market, and savings accounts with no customer initiated activity for 12 consecutive months will be considered dormant. A \$5 monthly dormant fee will be assessed on checking and money market accounts with a balance of \$100 or less.
